JVC-LA PROJECT MANAGEMENT ALLIANCE, LLC

JVC-LA Project Management Alliance, LLC, brings together the strength of two premier small business consulting firms --- J. Vollbrecht Consulting (JVC) and Longenecker & Associates (L&A) --- to enhance clients' success in the national security, environmental remediation and clean energy development arenas. JVC-LA Project Management Alliance combines expertise in areas such as project management, data analysis and portfolio management with core capabilities mission and regulatory assurance, project delivery and operations support.

JVC is a women-owned and service-disabled veteran-owned small business that specializes in providing project management and project controls support services to clients across the United States. The JVC team provides expertise to evaluate and systematically eliminate the nation's top scientific, energy and manufacturing risks through excellence in leadership, program management and strategy execution.

Founded in 1989, L&A is a premier woman-owned small business that supports the U.S. Department of Energy and the National Nuclear Security Administration. L&A leverages its experience throughout the nuclear security and cleanup enterprise to improve mission performance, deliver capital asset projects to schedule and budget, implement effective governance approaches and develop targeted business strategies for both large and small businesses.

U.S. SMALL BUSINESS ADMINISTRATION MENTOR-PROTÉGÉ AGREEMENT APPROVED IN NOVEMBER 2022.

EXPERIENCE

JVC and L&A have worked together to help clients achieve success at sites and projects across the country, including:

- Providing project management support at Lawrence Berkeley National Laboratory, including project manager training; improved project reporting; critical decision support and risk management. Together, JVC and L&A have led the implementation of an enterprise risk management system and will support critical infrastructure efforts going forward.
- Providing project controls for the Advanced Reactor Demonstration Project, including proposal support and project implementation; cost estimating; Earned Value Management System (EVMS) implementation; and engineering personnel training.
- Executing two off-site office space lease projects for Sandia National Laboratories, including development an analysis of alternatives; lease space negotiations and tenant improvement design and construction services. These projects were delivered on budget and on schedule.
- Performing a gap analysis of the EVMS for Idaho Environmental Coalition, the contractor for the DOE Idaho Cleanup Project. This effort, conducted in support of a \$100 million line item project, included review of documentation and procedures, staff interviews and analysis of EVMS implementation.
